IIIrd INTERNATIONAL SCIENTIFIC CONFERENCE "REFERENCE MATERIALS IN MEASUREMENT AND TECHNOLOGY"

11-14 September 2018, Ekaterinburg, Russia

Dear Colleagues,

We are pleased to invite you to attend the IIIrd International Scientific Conference "Reference Materials in Measurement and Technology" which will be held from 11 to 14 September 2018 in Ekaterinburg (Russia).

The conference will cover all areas related to reference materials (RMs). The following issues will be discussed at the conference:

- academic and practice-based aspects of development, production, distribution and use of reference materials (RMs);
- metrological assurance of measurements in the field of biological RMs, multi-element RMs, pharmaceuticals, quality control, food safety, environmental monitoring, ferrous and non-ferrous industry, nuclear industry, etc.;
- metrological assurance of measurements related to processing of measurement results, development and certification of new measurement procedures for composition and properties of substances and materials, analyzing possibilities of combined measurement methods in analytical control etc.;
- measurement methods (chemical and physico-chemical methods, atomic and molecular spectroscopy, chromatography, X-ray spectroscopy, mass spectrometry, nuclear-physical methods of analysis, etc.);
- metrological traceability of measurements, commutability;
- interlaboratory comparison testing;
- international cooperation in the field of RMs;
- general metrology issues.

The conference includes plenary and poster sessions as well as the possibility to organize a Round Table devoted to current RM problems.

We invite to participate in the conference foreign and Russian experts from research and metrology institutes, state regional centers for metrology, industrial sector companies, engaged in RM development, distribution and use as well as representatives of federal executive authorities, experts in the field of legal metrology, healthcare, veterinary medicine, ecology and other interested persons.

The conference will be held in Ekaterinburg, one of the biggest centers for chemistry and industry in Russia. Ekaterinburg is the city with rich historical and cultural heritage, having unique historical monuments, museums, churches. Ekaterinburg is a scientific and business center of the Ural region of Russia, situated in the area of the eastern slope of the Ural Mountains in the source of the Iset River.
